BIOKHEMIYA

Founder: A. M. Bakh

Editor-in-Chief: V. A. Engel'gardt

Acting Editor-in-chief: M. K. Sisakyan

Editorial Committee:

A. L. Kur^Sanov, A. I. Oparin, A. V. Palladin

Volume 16

Publication of the Academy of Sciences USSR

Moscow 1951

BIOKHIMIYA

CONTENTS OF VOLUME 16

Issue Number One

From the Council of Ministers USSR and the TsK VMP(b)	1
From the Presidium of Supreme Soviet USSR	1
In the memory of the great worker and organizer of science, Serge Ivanovich Vavilov	2
D. M. Mikhlin and K. V. Pshenova, "Oxidizing Enzymes and the Accumulation of Rubber in Kok-saghyz"	5
I. A. Zubovich and N. I. Kolozev, "The Problem of "Microdases" in Chemistry and Biology" (Growth Substances as the Acti- vators of Catalytic Systems)	12
M. P. Mashkovtsev, G. P. Volgunov and R. T. Potano, "The Infl- uence of Associated ⁱⁿ Hygroscopic Substances on the Acti- vity of Enzymes ⁱⁿ on Air-dried Substrates"	24
S. Ya. Demyanovskiy and A. A. Burova, " ^{Pyruvic} Pyrotartaric Acid and its Amination in the Organism of the Oak Moth Antheraea pernyi G"	29
Z. S. Gershenovich and A. I. Minkina, "The Interaction of Thiamine and Ascorbic Acid"	36
I. I. Dubrovskaya, "The Hydrolysis of the Antigen Complex of Brucella suis and the Chemical Nature of its Components	41

A. M. Alekseyeva, "The Acid Catalysis of the Dehydration Reaction of Guanidino-acetic Acid".	50
P. V. Sunakov, "The Activity of Polyphenols in the Peroxidase Oxidation of Substrates of an Imino Nature".	53
R. A. Rutberg, "The Contents of Lipids in Erythrocytes on Hemoglobinlysis".	56
I. F. Seyts and N. V. Yel'tsina, "The Influence of Endogenous Tissue Factors on the Pasteurizing Reaction and Asso- ciated Phosphorylation".	62
D. A. Tsuverkalov and K. A. Torban, "The Colorimetric Deter- mination of Histidine".	?
A. G. Yelitsur, "The Quick Determination of water in Blood Serum".	74
S. Ye. Bresler and N. A. Rosentsveya, "Proteolytic Enzymes -- metallo-proteins".	81
V. L. Kretovich, "The Biochemistry of wine-making", collected works, number 3.	84

Issue Number Two

A. M. Alekseyeva, "The Question of Creatine Phosphate Trans- formation into Creatinine." "A New Method of Deter- mining Creatine Phosphate".	97
G. A. Uzbekov, "The Influence of Ascorbic Acid on the Gas Exchange of the Brain in Animals".	104

- I. Okolov, "Enzymatic Catalysis in the Process of Ascorbic Acid Oxidation with Hydrogen Peroxide". 108
- I. B. Zbarskiy and K. A. Perevoshchikova, "The Contractile Properties of Proteins of the Cell Nucleus". 112
- G. S. Kitavin, "The Activity of Glucose-oxidase and Catalase in the Action of Mercuric Chloride on *Aspergillus niger*". 125
- G. S. Sheves and A. A. Kobylin, "ATP of Rabbit Liver under Normal Conditions and with Hypertireosis". 128
- S. L. El'kin, "Chemical Examination of Specific Polysaccharides in Three Forms of *Salmonella*". 133
- E. N. Gubarev, B. K. Lubentsov, A. A. Kanchukh, and Yu. V. Galayev, "The Fractionation and Properties of Some Lipid Fractions of Diphtheria Bacteria". 139
- A. M. Utevskiy and M. L. Lutom, "The Concentration of Adrenaline and Dehydroadrenaline in the Vessel Walls of the Rabbit". 146
- A. V. Kotelnikova, "Concerning the Stability of Adenosine-triphosphoric Acid During Storage". 150
- B. P. Golovin, "Concerning the Proposed Phosphorylation of Myosin". 156
- A. S. Troshin, "About the Distribution of Sugar Between Cells and Their Surrounding Equilibrated Fluids". 164

G. N. Pershin and L. I. Shcherbakova, "Microbiological Method
for Determining Folic Acid with the Use of Available
Media". 171

I. N. Garkina and V. N. Dikin, "A Chemical Method of Determining
Vitamin D in Fish Fats". 176

V. Solitsar, "The 25th Anniversary of the Institute of
Biochemistry of the Academy of Sciences Ukrainian SSR". 186

Reviews

"Laboratory Manual

G. Ye. Vladimirov, -- K. P. Meskova, and S. Ye. Sevrin, "Handbook
on the Biochemistry of Animals". 191

Issue Number Three

K. N. Chechenkin, "The Composition of Fats of Freshwater Fish
of Various Families". 193

D. I. Bel'tsev, ^{Concerning} "Towards a Method of Determining Vitamin C
in Colored Plant Extracts". 199

N. N. Ovchinnikov, "The Influence of Loosely Bound Water on
the Activity of Catalase". 205

P. V. Libina, "The Influence of 'Vikasol' on the Contractile
and Enzymatic Properties of Myosin". 209

A. S. Okanencko and L. K. Ostrovskaya, "The Respiration
of the Leaves of the Sugar Beet with Nitrate and
Ammonia Nutrition". 214

- M. D. Kiberin, "The Influence of Ascorbic Acid on the Level of
Blood Sugar as a Function of Ascorbic Acid ^{Supply} Provision to
the Organism". 222
- M. M. Zaslavskiy, "Physio-chemical and Biochemical Character-
istics of Myogen A". 229
- A. I. Taranova, "Amino-acid ^{Composition} Properties of Wheat Proteins as a
Function of Type, Place of Growth and Milling". 239
- M. G. Kritsman, A. S. Konikova, D. G. Stepanyan, and L. M.
Pyatigorskaya (deceased), "The Examination of Nitrogen Meta-
bolism in Diabetes with the Use of the Radio ^{active Methionine} ~~Method~~". 246
- V. D. Yevstigneyev and V. K. Nikiforova, "The Influence of
pH of the Environment on the Decomposition of Water
Solution of Glucose on Heating". 250
- D. M. Stepanenko and B. V. Ignatyuk-Maystrenko, "The ~~Decompo-~~
^{Spitting} sition of Sugar Hydrazones by Aldehydes". 256
- V. M. Bergol'ts and A. A. Il'ina, "The Fate of some Carcino-
genous and Non-carcinogenous Hydrocarbons in the
Animal Organism". 262
- I. P. Ashmarin, "The Study of the Contractile Properties of
Muscle Proteins with the Use of New Methodology". 269
- D. S. Zaprutskaya, "The Influence of Nutrition on the Distri-
bution of Vitamin B₁ in Divisions of the Nervous
system". 280
- S. E. Severin and N. A. Ydaev, "Changes in the Concentration
of Carnosine, Anserine and Creatine in the Ontogenesis
of Animals". 286

N. H. Sisalyan and A. M. Kobyakova, "The Formation and Movement of Enzymes in Living Organisms". 292

From the history of our national biochemistry

S. V. Soldatenkov, "The Scientific Activity of S. P. Kostychev". 293

Issue Number Four

R. I. Tatarskaya, M. S. Wajn, and L. P. Lapionova, "The Properties and Distribution of Thiaminase in Various Animal Forms". 305

S. S. Debov, "The Quantitative Concentrations of Protein Fractions in the Cell Nuclei of Normal Tissues and Malignant Tumors". 314

M. M. Zaalishvili, "Monomolecular Films of Lysozyme A". 321

I. I. Dubrovskaya and G. K. Shirpitsina, "Changes in the Properties of Specific Substances Recovered from Bacteria with Repeated Extraction". 328

G. P. Volgunov, "Changes in Protein Nitrogen During the Fermentation of Tobacco". 334

Ye. M. Skobets and N. N. Atamanenko, "The Polarographic Determination of Ascorbic Acid on a Hard Platinum Anode". 339

V. M. Kolesov, "The Nitrogen Concentration of Amino Groups in Molecules of Prolamines in Grain Cultures". 349

I. V. Vereshchinskiy, "A Method for Storing Isolated Chloroplasts Without Changing their Photochemical Activity". 350

A. M. Boyarkin, "A Quick Method for Determining the Activity of Peroxidase". 352

N. M. Sisakyan, E. M. Bezinger, and Ye. L. Kubayeva, "The Amino Acid Composition of Plastid Proteins". 358

V. A. Kirsanova and A. V. Trufanov, "The Synthesis and Biological Properties of Pteroyl-amino-pimelic Acid -- an analogue of Polic Acid". 367

From the history of our national biochemistry

T. S. Pashina, "The Meaning of the work of I. P. Borodin for the Development of Plant Biochemistry". 374

Reviews

Yu. M. Gelfer, M. L. Petrun'kin, and A. M. Petrun'kina, "Practical Biochemistry". 383

Issue Number Five

F. T. Sukhenko, M. M. Priss, and V. P. Rabushkevich, "The Influence of the Component Parts of Blood on the Speed of Oxidation of Ascorbic Acid". 385

I. E. Zbarskiy and S. S. Debov, "Protein Fractions of Cell Nuclei". 390

- G. V. Kamalyan, "The Role of Colamine in the Peroxidase Oxidation of Fatty Acids". 396
- A. D. Braun, "The Interaction of Proteins with Triphenylmethane dyes". 399
- V. S. Tongur and A. M. Tongur, "Regeneration of Insulin under Pressure". 410
- V. P. Mishin and A. I. Garbuzov, "Experiments in the Thermography of Proteinous Substances". 416
- I. I. Matulis, "The Reduction of Dehydroascorbic Acid by Human and Animal Tissues". 420
- N. I. Belkin, "Enzymatic Indicators of the Cold-resistance of Winter Wheats in Connection with Chilling and Fertilization". 429
- I. F. Rucakov, "The Volatile Substances of Clematis". 435
- I. G. Lyankovetskiy, "The Effects of Ultra-violet Radiation on the Activity of Glycero-phosphatase of the Blood". 441
- S. A. Heyfakh and V. I. Grechichkina, "The Preparation of Glucose-6-Phosphoric Acid". 444
- N. M. Sisakyan, V. I. Buryuzova and A. M. Kobyakova, "The Character of Changes in the Structure and Enzymatic Activity of Plastids in the Ontogenetic Cycle of Plant Development". 449
- G. P. Brin and A. A. Krasnovskiy, "The Influence on Photosynthesis and Respiration of Elodea Coupled with Oxidation-reduction potentials of Various Sizes". 453

L. Ya. Aresukina, "The Role of N-oxides of Alkaloids in
Plants". 451

S. V. Nebzvetzkiy and S. S. Patrinskaya, "The Physiochemical
Properties of Cholesterol in Animal Blood Serums". 471

Questions of the priority of our national biochemistry

From the editors 473

Kn. S. Kosmoyants and K. F. Kalmykov, "The History of
the Chromatographic Method". 479

A. M. Petrova, "The Enzymes in Muscle which breakdown the
Alpha-1.6 Link in Polysaccharides". 482

From the history of our national biochemistry

V. A. Engel'gardt, "M. V. Nentskiy (On the Fiftieth Anniversary
of the Day of his Death)". 486

Issue Number Six

G. K. Shlygin, "Kinazogen -- a Forerunner of Enterokinase" 497

S. A. Kibardin, "The Determination of Vitamin E in Blood
Serum". 511

N. P. Ivchenko, "Changes in the Composition of Mono and
Diamino Acids in the 'Anticomplexes' of the Vege-
tative Mass of Clover and Lucerne, in Connection
with the Methods of its Drying and its Vegetative
Phases". 515

- B. K. Hakhmanovich and L. V. Kochkina, "The Fermentation of Raffinose by Yeasts of the Strain 'Ya' under Conditions of Processing Food Syrups to Alcohol". 522
- F. T. Sukhenko and Ye. S. Podgaynaya, "The Breakdown of Proteins by the Enzymes of *Fusarium Avenaceum*". 528
- A. V. Tryfanov and Z. M. Pavlova, "The Contents of d-amino Acid Oxidase in the Livers of Rats and Chicks, Fed on a Synthetic Diet Containing Pteroglutamic Acid or Its Equivalent". 537
- I. S. Belonosov and Z. Ye. Sorokina, "The Effects of the Chinese Lemon Plant on Carbohydrate Metabolism". 542
- I. B. Zbarskiy, and K. A. Perevosnchikova, "The Nature of the Contractile Substance of the Cellular Nucleus". 547
- V. V. Ponomarev, "Heat Denaturation of Gliadine". 556
- Yu. L. Zakharin, "Concerning the Inhibition of the Hexokinase by Extracts and tissues of Animals". 562
- I. D. Entina and V. A. Yakovlev, "Methods of Studying the Oxidative Processes in the Tissues of Animal Organisms". 567
- Ya. A. Epshteyn, "A Direct Method for the Determination of the Acid-base Relationships of Blood Serum". 572
- M. S. Reznichenko, "The Concentration of Amino Acids in Gliadine (the Problem of the Length of Peptide Chains of the Protein molecule)". 579

G. M. Tulyakova, "The Effects of Mineral Nutrition on the Viscosity of Solutions and Saccharification of Potato Starch".	584
G. V. Troitskiy, "A New Design of Apparatus for Electrophoresis of Proteins with an Optical Recording of Moving Boundary Lines".	592
N. I. Kovalev, "The Biological Role of Several Aglucones".	600
Ye. P. Shadray, Ye. A. Gavrilova and V. V. Kravchenko, "The Determination of Ascorbic Acid in Plant Juices by the Chromatographic Method".	604
T. M. Turpaev, "The Role of Sulfhydryl Groups in the Contraction of Heart Muscle".	611
M. F. Mashkovtsev, "The Influence of the Amount of Water on the Reaction Process Between Amino Acids and Reducing Sugar".	615
I. V. Vereshchinskiy and A. A. Krasnovskiy, "The Influence of Ultra-violet Rays on the Photochemical Activity of Chloroplast Substances".	621
<u>Reviews</u>	
M. N. Meyzel', N. M. Sisakyan, "The Fermentative Activity of Protoplasmic Structures".	627
D. E. Grobzenskiy, "Advances in Biological Chemistry".	629
Author Index for Volume 16.	633
Subject Index for Volume 16.	637
